### KANSAS MILLERS ASK RELIEF.

Petition the Senate Alleviating Foreign Discrimination.

Washington, April 29.—In the senate Mr. Harris of Kansas presented the following telegram he had received from the Kansas Millers' association: "Kansas millers, on account of foreign discrimination, with the best wheat in the world at their door, are not producing over one-third of their full capacity. Unless your committee on foreign relations can give us relief, through reciprocal concessions, placing our millers on an equal basis with foreign mills, many of our mills will shut down indefinitely and some of them will be forced to the wall. In our distress we look to our senators for relief."

The telegram was referred to the committee on foreign relations.

### THE WAR IN SAMAR.

Mr. Burleson of Texas Wants More Information.

Washington, April 29.—Representative Burleson of Texas has introduced a resolution calling on the secretary of war for information as to whether General Smith's order relative to the war in Samar was based on orders from Washington and requesting the transmission of all orders issued from Washington relative to the suppression of the insurrection in Samar.

Representative Conroy of Massachusetts introduced another resolution calling for information along the same lines.

### ROOSEVELT STILL COMMANDER.

President Re-Elected by the Spanish War Veterans.

New York, April 28.—The New York Commandery Naval and Military Order of the Spanish-American War held its fourth annual meeting at Delmonico's. President Roosevelt was re-elected commander. The order is founded on the lines of the Loyal Legion, and only those who hold or have held commissions in the army or navy are eligible to membership.

## AFTER THE BEEF TRUST

ATTORNEY GENERAL CROW OF MISSOURI TAKES LEGAL PROCEEDINGS.

### COURT ISSUES AN ORDER

Chief Justice Burgess of the Supreme Bench Grants the Request for an Order Directing Prominent Packers to Appear in Court on May 6 and Answer Questions Touching a Combination and the Regulation of Prices.

Jefferson City, Mo., April 29.—Attorney General Crow has begun a proceeding in the supreme court which is intended to break up the so-called beef trust. He applied for and received from Chief Justice Burgess of the supreme court an order directing Charles W. Armour, vice president of the Armour Packing company at Kansas City; Kirkland B. Armour, the principal officer in Missouri for the Armour Packing company, with headquarters at Kansas City; J. C. Dold, first vice president and principal officer for the state for the J. C. Dold Packing company of Kansas City; O. W. Waller, principal officer in the state and agent for Swift & Co., South St. Joseph; Gust Bischoff, secretary of the St. Louis Dressed Beef and Provision company, St. Louis, and Walter Pfeffer, president of the St. Louis Butchers' union, St. Louis, to appear before the supreme court on May 6 and answer such interrogatories as may be asked touching the question of a combination and the regulations of dressed beef and meats in Missouri. This proceeding is brought under the law of 1893, which is the same as the New York state law held constitutional.

### MEAT PRICES GO UP.

Kansas City Packers Generally Advance Rates.

Kansas City, April 29.—The packers, contrary to expectation, made another raise in prices during the day. Herebefore there has been a class of beef sold for 19 cents a pound to the butchers. 10 1/2 being charged for the best quality. Now, however, no beef except the most inferior grass-fed quality can be bought for less than 10 1/2 cents. A proportionate raise was made in the wholesale prices of all beef parts, loins, ribs, etc. Pork and provisions were also sent up. There was a general raise of one-half cent on pork stuffs of all kinds. Pork loins, which were being sold to the butcher for 12 cents, now cost 12 1/2 cents. Provisions also advanced one-half cent. Hams were selling for 11 1/2 cents, but are now bringing 12 1/2 cents. Even veal carcasses now cost the butchers 10 cents a pound with the hide on.

### MAKE STRONG PROTEST.

Chicago Merchants Allege Discrimination in Transcontinental Rates.

Chicago, April 29.—Merchants and manufacturers of Chicago have united in a strong protest to the interstate commerce commission against alleged discrimination in transcontinental rates. It is charged that by the rates made Chicago manufacturers are placed in competition with New York for Pacific coast trade, and for trade west of the Rockies. Attention is called to the fact that equal rates from New York and Chicago to Pacific coast points practically eliminates the advantage which should be Chicago's, owing to her situation territorially. To this charge the answer of the railroad managements has always been that water competition by the way of the gulf has made it imperative that the same rates be made from New York to the Pacific coast as from Chicago. St. Louis, St. Paul and other Mississippi river valley points. Were the rates made higher from New York by the all-rail route the lower rates existing by water from New York to the gulf and thence by rail would take all the traffic that way.

The result is that the jobbers in the Middle West have been unable to compete with New York jobbers by reason of the local freight rates charged from New York to Chicago.

### Governor Savage Not a Candidate.

Lincoln, Neb., April 29.—In a statement just issued Governor Ezra P. Savage announces his withdrawal from the candidacy for renomination. Since he pardoned former State Treasurer Bartley from the penitentiary the governor has been subjected to much adverse criticism from men of his party and Republican newspapers. In his statement, however, he says he would pardon Bartley under similar conditions.

### South Dakota Editor Dead.

Aberdeen, S. D., April 29.—W. E. Kidd, editor and publisher of The Dakota Ruralist, died of Bright's disease. Mr. Kidd had been prominent in South Dakota politics for several years and was a member of the legislature during Governor Lee's administration.

### Will Coin Venezuelan Money.

Caracas, Venezuela, April 29.—The Venezuelan government has decided to use the mint at Washington instead of the Paris mint, as formerly, for the coinage of bolivars (silver coins worth about 20 cents). About 2,000,000 bolivars are to be coined.

### SOL SMITH RUSSELL DEAD.

Lingering Illness Ends Fatally to the Noted Comedian.

Washington, April 29.—Sol Smith Russell, so well known everywhere as an actor, died here at 2:30 p. m.

Mr. Russell's condition became critical during the morning and the disease progressed rapidly to the end. He has been confined to his bed for many weeks and for two weeks past has been unable to recognize any one.

Sol Smith Russell was born at Brunswick, Me., June 15, 1848. He followed the Union army as a drummer boy; left at Cairo, Ill., where he sang in a theater, acted small parts and beat the drum in the orchestra; later joined a traveling company and played at St. Louis in 1865. His first appearance in New York was in 1871 and he joined Daly's company in 1874. For a number of years he starred with his own company in "Edgewood Felks," "Felix McCusick," "A Poor Relation," "Peaceful Valley," etc. His home for many years past has been in Minneapolis.

The funeral services will take place Wednesday afternoon from the residence of Mr. Berger, a brother-in-law of Mr. Russell. Mr. Russell was an Episcopalian and the burial service of that church will be read over his body by Rev. J. B. Perry, the rector of St. Andrews' Episcopal church of this city. Mr. Russell leaves a widow and two children, Miss Alice Russell, and a son, Robert E. Russell of Minnesota.

### SCHLEY AT MEMPHIS.

Magnificent Silver Service Presented to the Admiral.

Memphis, Tenn., April 29.—The first day of the visit to Memphis of Admiral and Mrs. W. S. Schley opened with lowering clouds and occasional showers. Despite the downpour great crowds began to gather around the Gayoso hotel at as early as 9 o'clock. It was decided to postpone the parade. Many prominent people paid their respects to the admiral and his wife during the morning hours, including Governor Benton McMillin and wife.

After luncheon the admiral and his wife were driven to the Auditorium, where a magnificent silver service was presented to Admiral Schley on behalf of 18,000 subscribers to a fund for that purpose.

At 9 p. m. a banquet of 300 covers was spread in the new Gayoso in honor of Admiral Schley. The guest of the evening was introduced by Hon. W. J. Crawford and in responding Admiral Schley congratulated the people of Memphis and the South on the great progress they had made in recent years. Governor McMillin and others also spoke.

Mrs. Schley was entertained in the evening by the ladies of Waukauga chapter of the Daughters of the American Revolution.

### TO TEST THE CONSTITUTION.

Alabama Negroes Will Fight for the Right to Vote.

Montgomery, Ala., April 29.—The first step was taken by the negroes of Alabama during the day toward testing the new constitution of the state when Nelson Bibb, an aged negro, made affidavit before a notary that he had been denied the right to register, although alleging that he had complied with all of the qualifications exacted by the constitution. It is said that this affidavit will be used by Wilford H. Smith, a negro lawyer from New York, who is here, in filing a bill in the United States district court declaring that the constitution of Alabama is contrary to the federal constitution. If he is unsuccessful in the lower courts the case will be appealed to the United States supreme court. The Colored Men's Suffrage association, which was organized here about a month ago, has issued an appeal to the negroes of the state to subscribe \$2,000 to pay the costs of contesting the new instrument.

### STRIKE OF LONGSHOREMEN.

Lumber Shovers at Duluth Demand Sixty Cents an Hour.

Duluth, April 29.—The demand of the longshoremen's union for 60 cents an hour for lumber loading was refused by the vessel captains, and the 250 members of the union thereupon refused to go to work. No attempt was made to engage outside help, but the vessel captains started the members of their crews to work loading. Meanwhile a meeting of the Lumber Carriers' association has been called at Chicago, when it will be decided whether the vessel owners are to concede the raise or make a fight. In case the latter decision is reached, it would mean a contest against the entire national organization of the longshoremen.

### MINNESOTA DRAINAGE LAW.

Case Brought in Supreme Court to Test its Constitutionality.

St. Paul, April 29.—Gideon S. Ives of St. Peter, as attorney for John Urick and others of Polk county, appeared before the supreme court and secured from Chief Justice Start a writ of certiorari, returnable May 23, to test the constitutionality of the state drainage law. The Hainy lake ditch runs through the property of the applicants and they will attack the constitutionality of the law on the ground that it takes private land for private purposes.

### Cummings' Condition Critical.

Baltimore, April 29.—The seriousness of the condition of Congressman Amos J. Cummings of New York, who is a patient at the Church Home infirmary in this city, has been augmented by the development of double pneumonia. Several days ago pneumonia developed in one lung and an examination by the physicians has revealed the fact that the other had become slightly affected.

## UP TO THE PRESIDENT

SENATE AGREES TO THE HOUSE AMENDMENTS TO OLEOMARGARINE BILL.

### SENSATION IN THE HOUSE

Representative Sibley of Pennsylvania

Severely Denounces General Jacob

H. Smith for Orders Issued in the

Samar Campaign—Declares Him a

Disgrace to the Uniform He Wears

and Calls for His Removal.

Washington, April 29.—After a brief discussion the senate agreed to the house amendments to the oleomargarine bill as passed by the senate. The measure now goes to the president for his signature. An effort was made by Mr. Teller (Colo.) to amend the measure so as to levy a tax of 10 per cent of the capital or assets on any butter trust that might be formed, but it was defeated.

Mr. Simmons (N. C.) addressed the senate in opposition to the Philippine government bill. He urged that the Philippines ought to be turned over to the inhabitants of the islands. He denounced the "cruelties and barbarities" alleged to have been committed on the Filipinos by the American army and said he felt "like calling upon the great, brave and humane man at the White House to probe these things to the bottom and at least make them odious."

The conference report upon the Chinese bill was adopted.

Consideration of the sundry civil appropriation bill was begun but not concluded.

### DISGRACE TO THE UNIFORM.

General Jacob H. Smith Severely Denounced in the House.

Washington, April 29.—Representative Sibley (Pa.) created something of a sensation in the house during the general debate on the agricultural appropriation bill by severely denouncing General Jacob H. Smith for the orders he issued in the Samar campaign. He declared that General Smith was a disgrace to the uniform he wore and expressed the hope that the president would strip him of his uniform within 48 hours. Mr. Sibley's speech was enthusiastically applauded by the Democrats and was received with some evidence of approval by the Republican side. The speech was considered the more remarkable in that it came from a Republican who left the Democratic party on the issue raised by the Spanish war and who has since been an ardent expansionist. Mr. Williams (Dem., Miss.) endorsed what Mr. Sibley had said.

Upon the conclusion of the general debate slow progress was made with the bill, only 25 of the 49 pages being disposed of.

### Italy Will Purchase an Embassy.

Rome, April 29.—The senate has passed without discussion, a bill providing for the purchase of a building in Washington to be occupied by the members of the Italian embassy. The purchase of this building was approved by the chamber of deputies April 9.

### TEMPORARY INJUNCTION.

St. Louis Judge Prevents a Transfer of Ferry Stock.

St. Louis, April 29.—In the circuit court Judge Ferris granted a temporary injunction to restrain the officers of the Wiggins Ferry company from transferring the stock to the Mississippi Valley Trust company, and to prevent similar negotiations on the part of any stockholder of the Wiggins Ferry corporation. The order was made returnable Friday next.

The petition was filed by the Mercantile Trust company, which is reported to have secured an option on a majority of the stock at \$500 a share.  
Kansas City, April 29.—It is the opinion of local railroad men generally that the Santa Fe railway is the buyer of the St. Louis, Kansas City and Colorado railroad and the Wiggins ferry. At first it was believed that the extension into Kansas City of the new road would be over the Frisco system tracks. Now it is stated that the road will connect with the Santa Fe near Sibley, Mo., and come into Kansas City over the Santa Fe terminals.

The speech was considered the more remarkable in that it came from a Republican who left the Democratic party on the issue raised by the Spanish war and who has since been an ardent expansionist. Mr. Williams (Dem., Miss.) endorsed what Mr. Sibley had said.

Upon the conclusion of the general debate slow progress was made with the bill, only 25 of the 49 pages being disposed of.

## 'IN BENIGHTED TENERIFE.

Consul Berliner's Wife Says Natives Are Away Behind the Times.

The wife of Sol Berliner of New York city, now consul at Tenerife, Canary Islands, has written a letter to a friend in Washington in which she vigorously "roasts" the people among whom her husband's lot is cast. English as well as Spanish, says the New York Times. Her letter is in part as follows:

"Think of it, I have been away from home over two months and have had only one letter! You can't imagine how it feels to get mail here. You see, it brings you in touch with people of your own race on an equality with you—in short, with civilization itself. Not that these people are savages, but that they are living two centuries behind the times, and as for the English people here, well, I would rather be with the natives than with them. They come here the most untidy people I ever saw, make their living and pile up a little out of these people, abuse them and then go to England. They are very much disliked here. When a Spaniard speaks of 'los Ingleses,' it is with contempt.

"Now let me tell you of our Spanish beauties. They have coffee or chocolate in bed at 8 o'clock and, having nothing better to do, lie there until time to dress for what they call 11 o'clock breakfast, but it is really a dinner, for they have soup, fish, meats, vegetables, desserts, fruits, etc. Then they play the piano or curl their hair until evening, when they dress and powder their faces until they look whitewashed. Then they sit by the window or balcony, waiting to be admired or waiting for their 'nobios' (sweethearts), who must not come into the house until the engagement, but who stand outside night after night, as if holding up the side of the house. They do not work and never take any exercise. And where is their beauty? The most homely American girl is as pretty as the most beautiful Spaniard. There may be a few pretty girls here, but they are rare. Fancy girls who take no exercise and whose minds are not developed beyond music and dress and who, although they are by nature deathly pale, insist upon putting powder by the pound on their faces, old and young just the same! And, besides, they all try to imitate the saintly look.

"The school system here is deplorable, and I thought I could do some good, but I am an American and must only look on. I am trying to cultivate the friendship of the civil governor and induce him to do something and have worked matters so far as to speak fearlessly to him and to tell him that 85 per cent of his people can neither write nor read and make him understand that in few countries besides Spain can such conditions be found and how detrimental it is for the country. He is intelligent and admitted that I was right.

"But," he said, "they know no better, and it is perhaps better to keep them in ignorance and contentment than to teach them a little and make them only crave for more." I told him if it came to that point and the people craved for more, perhaps for a higher education in colleges which the country could not afford, then the people themselves would soon find a way to support their own schools as soon as they were made to feel the importance of it. But the trouble all lies with politics. The civil governors know they may be here for the length of time their party has control, but the parties often exchange places. For instance, the last governor came with his entire family from Madrid and was here but six weeks when the party of the present governor took the lead, and he was recalled. So they simply try to make all the money they can while here and do not interest themselves more than necessary."

## THE FIRST "CROWERY."

Pennsylvania Farmer Will Furnish Heads and Wings to Milliners.

Farmer Wentworth of Glenwood, near Susquehanna, Pa., has established a crow hatchery and has stocked it with 200 females and twenty males. He has contracted to furnish a Philadelphia wholesale millinery establishment with heads at 50 cents each and wings at 20 cents, says the New York World.

By next spring he expects a flock of 2,000 crows. Naturalists are watching the experiment with interest.

## The Latest Insurance.

It is now possible to insure at Lloyds against the risk of smallpox breaking out in the house on either side of you, the idea being, of course, to protect the assured against expense incurred by temporary removal, says the London Financial Times. The rate is a minimum of 10 shillings per cent for the year, the risk of course extending over an indefinite number of people. One broker, who was in this business from the start, has been doing hardly anything else for the past few days, and many who at first laughed at the whole thing are now coming into the market.

## Novel Lantern For Policemen.

Chief of Police O'Neill of Chicago has a newly devised dark lantern, which is cylindrical in form and emits a bright ray of electric light when a button is pressed.

"Why not put one in the end of each officer's 'billy?' " the chief was asked by a reporter of the Chicago Inter Ocean.

"Some officer might undertake to enforce an ordinance with his club," the chief said, "and that would be the end of the lantern; otherwise it would be a good idea."

"Now let me tell you of our Spanish beauties. They have coffee or chocolate in bed at 8 o'clock and, having nothing better to do, lie there until time to dress for what they call 11 o'clock breakfast, but it is really a dinner, for they have soup, fish, meats, vegetables, desserts, fruits, etc. Then they play the piano or curl their hair until evening, when they dress and powder their faces until they look whitewashed. Then they sit by the window or balcony, waiting to be admired or waiting for their 'nobios' (sweethearts), who must not come into the house until the engagement, but who stand outside night after night, as if holding up the side of the house. They do not work and never take any exercise. And where is their beauty? The most homely American girl is as pretty as the most beautiful Spaniard. There may be a few pretty girls here, but they are rare. Fancy girls who take no exercise and whose minds are not developed beyond music and dress and who, although they are by nature deathly pale, insist upon putting powder by the pound on their faces, old and young just the same! And, besides, they all try to imitate the saintly look.

"The school system here is deplorable, and I thought I could do some good, but I am an American and must only look on. I am trying to cultivate the friendship of the civil governor and induce him to do something and have worked matters so far as to speak fearlessly to him and to tell him that 85 per cent of his people can neither write nor read and make him understand that in few countries besides Spain can such conditions be found and how detrimental it is for the country. He is intelligent and admitted that I was right.

"But," he said, "they know no better, and it is perhaps better to keep them in ignorance and contentment than to teach them a little and make them only crave for more." I told him if it came to that point and the people craved for more, perhaps for a higher education in colleges which the country could not afford, then the people themselves would soon find a way to support their own schools as soon as they were made to feel the importance of it. But the trouble all lies with politics. The civil governors know they may be here for the length of time their party has control, but the parties often exchange places. For instance, the last governor came with his entire family from Madrid and was here but six weeks when the party of the present governor took the lead, and he was recalled. So they simply try to make all the money they can while here and do not interest themselves more than necessary."

THE FIRST "CROWERY."

Pennsylvania Farmer Will Furnish Heads and Wings to Milliners.

Farmer Wentworth of Glenwood, near Susquehanna, Pa., has established a crow hatchery and has stocked it with 200 females and twenty males. He has contracted to furnish a Philadelphia wholesale millinery establishment with heads at 50 cents each and wings at 20 cents, says the New York World.

By next spring he expects a flock of 2,000 crows. Naturalists are watching the experiment with interest.

The Latest Insurance.

It is now possible to insure at Lloyds against the risk of smallpox breaking out in the house on either side of you, the idea being, of course, to protect the assured against expense incurred by temporary removal, says the London Financial Times. The rate is a minimum of 10 shillings per cent for the year, the risk of course extending over an indefinite number of people. One broker, who was in this business from the start, has been doing hardly anything else for the past few days, and many who at first laughed at the whole thing are now coming into the market.

Novel Lantern For Policemen.

Chief of Police O'Neill of Chicago has a newly devised dark lantern, which is cylindrical in form and emits a bright ray of electric light when a button is pressed.

"Why not put one in the end of each officer's 'billy'?" the chief was asked by a reporter of the Chicago Inter Ocean.

"Some officer might undertake to enforce an ordinance with his club," the chief said, "and that would be the end of the lantern; otherwise it would be a good idea."

## STILL ANXIOUS FOR A TELEPHONE LINE

Mille Lacs Lake People Held Another Important Meeting Last Night.

### PROPOSITION FROM MR. WALKER

But the Men did not Reach an Agreement and Another Meeting is Called

Last night there was a meeting of the Mille Lacs lake farmers in the council chambers in this city, called for the purpose of again taking up the matter of building a telephone line between this city and the Mille Lacs lake country.

It seems that this matter has been hanging fire for sometime and although the residents of Mille Lacs lake have been very anxious for the improvement, there have been some obstacles which could not be overcome without shifting the burden of the expense on a minority of those who would be benefited. The question of the equal and just distribution of the cost of maintaining such a line has been a problem which they have not been able to solve. For instance the man who may live out nine or ten miles from Brainerd, and still may live within a radius which would be benefited by a pay station, although he himself might live four or five miles from such pay stations and could almost as easily drive to Brainerd as to the telephone, does not feel like contributing as much as the man who lives close by and could reach the station with very little trouble.

Early last winter the matter was taken up and was talked in a public meeting held in this city. It was decided to proceed in some manner to get the line put through and one of the first steps was to go to Manager Walker of the Brainerd Telephone Exchange and have him make a proposition. He made the proposition that if they would furnish the poles and set them that he would do the rest. This seemed fair enough and those interested started out to work the different townships to furnish the poles. Everything went along smoothly enough until they reached the gap between Brainerd and about twelve miles out. Here the farmers did not see how they could be benefited as they were usually in the city once or twice a week anyway and if there was anything needed in a hurry they could drive in in about an hour. There was some talk then of getting the business men interested in building the line about twelve miles out, but the matter was dropped.

The farmers then formed a company known as the Mille Lac Lake Telephone Company, and the object was to secure contributions and build the line themselves. But this scheme failed.

Manager Walker made the proposition last night that if they would furnish and set the poles that he would put the line through providing that there were six pay stations that would guarantee \$5 for each station. Those present could not act on this matter and Mr. Walker's proposition was not accepted, but another meeting will be held in a short time to consider the matter.

The following was the very modest writeup given of the game Sunday between Brainerd and Little Falls by the Transcript:

The game was fairly won up to that time by a score of 6 to 2. The Brainerd team arrived in the city on a special train accompanied by their Marine band and a crowd of perhaps one hundred and fifty rooters. With the exception of a heavy wind back of the pitchers the day could not have been finer. The attendance was quite large for the opening game, five hundred paid admissions being taken at the gate. For the first game of the season both teams played remarkably well, all but the fatal seventh."

## MANGLED UNDER WHEELS OF TRAIN

A Fatal Accident Occurred Yesterday Morning This Side of Little Falls.

### JOHN RUTZ IS KILLED

He and Companion were Stealing A Ride and Were Thrown from the Train.

Those who left the city yesterday morning on the Little Falls & Dakota branch of the Northern Pacific saw an accident this side of Little Falls that was appalling, when a young man was killed while trying to board the train. The following account of the accident is taken from the Little Falls Transcript:

"While attempting to board a rapidly moving train about four miles west of the city, about 11 o'clock Monday morning, Jacob Rutz, a young man about sixteen years of age, was thrown under the wheels and badly mangled.

"Rutz and a friend, whose name cannot be learned, were on their way to the former's home and as the accommodation train on the Little Falls & Dakota, commonly known as the 'Pea Vine,' was seen approaching, it was proposed by one of the two that they catch a ride and beat their way to Flensburg. Rutz attempted to board the train first and after catching hold of the ladder of the box car was in some manner thrown under the wheels. His left leg was ground off very close to the body, the wheel crushing the hip bone. His left arm was also crushed just below the shoulder, and the joint joining the arm to the body was torn from the socket. His face was also injured, the chin being almost cut off the face.

"The screams of Rutz and his companion were heard by passengers in the train who gave the alarm to the trainmen. The train was stopped

and the injured man taken on board and carried to the city. Drs. Trace and Chance were hurriedly called and the man conveyed to St. Gabriel's hospital where the injured man was given every care and all possible was done to relieve him of his suffering.

"Drs. Chance and Trace administered an anaesthetic and closed the arteries of the injured man's limbs. Everything in their power was done to relieve him but the unfortunate man died at 1:30 p. m.

"The deceased was the youngest son of Ignatz Rutz, who lives at LaFond station about seven miles west of the city.

#### From South Africa.

An interesting letter was recently received by F. A. Miller, general passenger agent of the Chicago, Milwaukee & St. Paul railway, from a wealthy diamond hunter in the Orange Free State, South Africa, who has just returned to that place after a two years' tour of the world. He says he covered over thirty thousand miles during the journey, and that the ride of 410 miles from St. Paul to Chicago on the Pioneer Limited in July, 1901, was by far the most enjoyable part of the trip. He also states emphatically that nowhere in the world can train service be found to compare with that in the United States and particularly that of the Milwaukee road.

## MUSIC AND DRAMA.

AL. G. FIELD GREATER MINSTRELS.

The first part creation of Al. G. Field Greater Minstrels this season is a scenic spectacle entitled "A Day and a Night at the Pan-American Exposition." The subject is a bright and far reaching one, giving unlimited scope to the famous scenic artists M. Armbruster & Sons who are recognized as the leaders in American novel scene building. The production of this beautiful first part setting with its wealth of color, picturesque architecture and magnificence and electrical effect has put the ability of this celebrated firm to the severest test and its magnitude was enough to awe the purse of the most generous manager; but Al. G. Field determined to outdo all previous efforts in minstrel first parts, gave the word "proceed" and the result has been enchanting. The best brains and intellect of the studio were put to work designing and putting into practical shape the models for the ponderous task. Every point of interest, every building, all the exquisite color scheme, abundance of colors and master works of the sculptors are shown with most life-like detail. It has been said by spectators at the beautiful Exposition that the scene in the evening when by mighty force of the greatest power in the known world, "The Majestic Niagara Falls," the electric current is turned into the 365,000 bulbs while the big bands are playing the national anthem, is the most awe inspiring ever beheld by man. This scene is faithfully produced with wonderful effect by the Field Minstrels and is the limit in stage realism. The set stuff, drops, statues and electric appliances required to produce the spectacle, completely fills Mr. Field's seventy-two foot baggage car. And to make room for it on the stage, every vestige of house scenery must be moved from the stage before the arrival of the company. It is by far the most ambitious production known to minstrelsy. At the Brainerd opera house, Thursday night.

Sale of seats opens tomorrow morning.

Thursday night a treat will be afforded those who go to the Congregational church to hear the Dixie Jubilee Concert Company. The Geneva, Ill., Petrel says of this company:

P. S. C. E. It had been advertised that there would be no dull moments and we feel safe in saying there were few. From beginning to end the concert was good. The Endeavorers secured more than enough money from their share of the profits to pay the balance due on the improvements at the church."

The following account of the accident is taken from the Little Falls Transcript:

"While attempting to board a rapidly moving train about four miles west of the city, about 11 o'clock Monday morning, Jacob Rutz, a young man about sixteen years of age, was thrown under the wheels and badly mangled.

"Rutz and a friend, whose name cannot be learned, were on their way to the former's home and as the accommodation train on the Little Falls & Dakota, commonly known as the 'Pea Vine,' was seen approaching, it was proposed by one of the two that they catch a ride and beat their way to Flensburg. Rutz attempted to board the train first and after catching hold of the ladder of the box car was in some manner thrown under the wheels. His left leg was ground off very close to the body, the wheel crushing the hip bone. His left arm was also crushed just below the shoulder, and the joint joining the arm to the body was torn from the socket. His face was also injured, the chin being almost cut off the face.

"The screams of Rutz and his companion were heard by passengers in the train who gave the alarm to the trainmen. The train was stopped

and the injured man taken on board and carried to the city. Drs. Trace and Chance were hurriedly called and the man conveyed to St. Gabriel's hospital where the injured man was given every care and all possible was done to relieve him of his suffering.

"Drs. Chance and Trace administered an anaesthetic and closed the arteries of the injured man's limbs. Everything in their power was done to relieve him but the unfortunate man died at 1:30 p. m.

"The deceased was the youngest son of Ignatz Rutz, who lives at LaFond station about seven miles west of the city.

### From South Africa.

An interesting letter was recently received by F. A. Miller, general passenger agent of the Chicago, Milwaukee & St. Paul railway, from a wealthy diamond hunter in the Orange Free State, South Africa, who has just returned to that place after a two years' tour of the world. He says he covered over thirty thousand miles during the journey, and that the ride of 410 miles from St. Paul to Chicago on the Pioneer Limited in July, 1901, was by far the most enjoyable part of the trip. He also states emphatically that nowhere in the world can train service be found to compare with that in the United States and particularly that of the Milwaukee road.

## MUSIC AND DRAMA.

AL. G. FIELD GREATER MINSTRELS. The first part creation of Al. G. Field Greater Minstrels this season is a scenic spectacle entitled "A Day and a Night at the Pan-American Exposition." The subject is a bright and far reaching one, giving unlimited scope to the famous scenic artists M. Armbruster & Sons who are recognized as the leaders in American novel scene building. The production of this beautiful first part setting with its wealth of color, picturesque architecture and magnificence and electrical effect has put the ability of this celebrated firm to the severest test and its magnitude was enough to awe the purse of the most generous manager; but Al. G. Field determined to outdo all previous efforts in minstrel first parts, gave the word "proceed" and the result has been enchanting. The best brains and intellect of the studio were put to work designing and putting into practical shape the models for the ponderous task. Every point of interest, every building, all the exquisite color scheme, abundance of colors and master works of the sculptors are shown with most life-like detail. It has been said by spectators at the beautiful Exposition that the scene in the evening when by mighty force of the greatest power in the known world, "The Majestic Niagara Falls," the electric current is turned into the 365,000 bulbs while the big bands are playing the national anthem, is the most awe inspiring ever beheld by man. This scene is faithfully produced with wonderful effect by the Field Minstrels and is the limit in stage realism. The set stuff, drops, statues and electric appliances required to produce the spectacle, completely fills Mr. Field's seventy-two foot baggage car. And to make room for it on the stage, every vestige of house scenery must be moved from the stage before the arrival of the company. It is by far the most ambitious production known to minstrelsy. At the Brainerd opera house, Thursday night.

Sale of seats opens tomorrow morning.

### DIXIE JUBILEE SINGERS.

Thursday night a treat will be afforded those who go to the Congregational church to hear the Dixie Jubilee Concert Company. The Geneva, Ill., Petrel says of this company:

"The seating capacity of Wrate's hall was tested last Friday evening by the large and appreciative audience that greeted the Dixie Jubilee Singers, who gave an entertainment for the benefit of the Y. P. S. C. E. It had been advertised that there would be no dull moments and we feel safe in saying there were few. From beginning to end the concert was good. The Endeavorers secured more than enough money from their share of the profits to pay the balance due on the improvements at the church."

SEVEN PEOPLE KILLED

TORNADO DOES CONSIDERABLE DAMAGE AT GLEN ROSE, TEX.

INJURED NUMBER FORTY

Printing Office, Warehouse, Grocery Store and Many Other Business Structures Entirely Demolished. Many Residences Blown Down, but Owing to the Great Confusion Details Have Not Been Ascertained.

Dallas, Tex., April 29.—A telephone message to The News from Morgan, Tex., says a tornado passed over Glen Rose, a small town in Somerville county, between 5 and 6 o'clock p. m., killing 5 persons, injuring 40 more and demolishing much property. The dead are:

Mrs. Carl Milan, 2-year-old daughter of J. R. Milan, Rev. Mr. Ford, pastor of the Methodist church; Miss Mae Connell, a boy named Musgrove, Mrs. Gage and one other, name unknown.

The most seriously injured are: Mrs. Tidwell, Mrs. Baschow, Mr. and Mrs. Thomas Trice and baby, Miss Fogg, Mr. and Mrs. Shields and Mrs. Lewis of Weatherford.

One-third of the business houses of the town were demolished. Assistance has been sent to Glen Rose from Morgan, but it will be some hours before anything like definite particulars are obtainable.

The courthouse was badly damaged, a printing office blown away, two saloons were partly destroyed, Milan's warehouse demolished, Lily & Son's grocery store blown away, a blacksmith shop destroyed and four buildings of Hendricks & Son were totally demolished. Many residences were blown down, but everything is in great confusion and the exact extent of the storm cannot be ascertained.

STRUCK BY A SQUALL.

Schooner Grace Gribble Wrecked and Three of the Crew Lost.

Sandusky, O., April 29.—The fishing steamer Louise brought the survivors and the first details of the story of another lake disaster. The schooner Grace Gribble of Cleveland, Captain Thomas Wilson, went to pieces on Point Pelee Saturday and three of the crew were drowned. Their names are: Levi Fuller, sailor, Port Hope, Mich.; Colgate Bendixon, sailor, Port Hope, Mich., and William Roach, mate, Cleveland.

The Gribble was en route from Ashtabula for St. Ignace. Six miles from Detroit a squall took the vessel's canvas. The storm increased so greatly that the vessel was soon a wreck. The drowned men were washed from the boat by the heavy seas and the survivors had a perilous experience before they reached shore.

LAND ALREADY PROCURED.

Monster Steel Plant to Be Erected at Chicago.

Pittsburg, April 29.—The Dispatch says:

An exact duplicate of the monster works to be built at Economy by the American Bridge company will be erected at Chicago at a cost of between \$2,500,000 and \$3,000,000. This decision was recently reached by the directors of the United States Steel corporation and will be one of the results of the pending bond issue of \$50,000,000. The Chicago plant will be used to concentrate the works of the Western district. The Toledo plant alone will be in operation. It will be operated in connection with the Pittsburg and Chicago works. The land for the Chicago plant has already been procured.

GRAIN PALACE BURNS.

Company of State Guards Loses Arms in a Fire at Aberdeen, S. D.

Aberdeen, S. D., April 29.—The grain palace burned early in the morning. Company L of the state guards lost all its equipment, including arms.

Burning embers from the roof were borne on a high wind several blocks, and a dozen fires were set thereby, but men on the watch put out the fires with little loss. The total loss will reach \$10,000.

Charitable Institution Destroyed.

Oakland, Cal., April 29.—The King's Daughters' Home, a charitable institution, containing 40 inmates, was nearly totally destroyed by fire, and two patients, William Bray, at one time a New York editor, and John H. Murray, were terribly burned. Bray died of his injuries. The fire is supposed to have originated by Bray overturning a lighted lamp while in an epileptic fit. The other patients, consisting of 25 elderly women and 15 men were rescued.

Nine Passengers Injured.

Eureka Springs, Ark., April 29.—A caboose on the St. Louis and North Arkansas Railroad left the track six miles west of here and nine out of ten passengers were more or less seriously injured. HELD FOR INVESTIGATION.

Woman Believed to Be Mrs. Luetgert Arrested in Chicago.

Chicago, April 29.—Mrs. Mary Robbins, who is believed by some to be Mrs. Adolph L. Luetgert, the supposed murdered wife of the sausage maker, was taken into custody by Detective Blais because of the strong suspicion that attaches to her case. Mrs. Robbins had intended leaving the Alma Mott home, 589 Austin avenue, to which she was taken about six weeks ago, but the chain of circumstantial evidence seemed so strong to Attorney Lawrence Harmon, who defended Luetgert, and to a number of other persons interested, that a hurried conference was held and it was decided to hold the woman until further investigation can be made.

The woman told apparently conflicting stories, but insisted that she is not Mrs. Luetgert.

Mr. Harmon asserts that he is more than ever convinced that she is Mrs. Luetgert and Detective Blais also declared that he believed she is the widow of the sausage maker.

ARE TEN CENTS NOW.

Ham Sandwiches in Chicago Double the Usual Price.

Chicago, April 29.—For the first time in many years in this city a cash outlay of 10 cents is necessary for the acquisition of one ham sandwich. The price has been 5 cents, but the restaurateurs have put up the valuation because of the prices they are compelled to pay for meat. Roast beef sandwiches have advanced 5 cents, from 10 to 15 cents.

It is estimated that 300,000 ham sandwiches are consumed in Chicago every day, and the increased cost to the public will therefore be \$15,000 on the ham proposition alone.

At Yara he met General Bartolome Masso, the candidate of the Democratic party for the presidency of Cuba, but who withdrew from the campaign, and received an affectionate greeting from him. The entire Spanish colony turned out in his honor.

DREYFUS CASE SECRETS.

French Lecturer Addresses University of Chicago Students.

Chicago, April 29.—Alleged secrets of the Dreyfus case, unknown to many Frenchmen who followed closely the proceedings of the trial, were confided to the University of Chicago students during the day by M. Hughes le Roux. The French lecturer declared that Captain Dreyfus admitted guilt at the time he was pardoned.

"Captain Dreyfus not only was guilty of conspiracy, but he confessed to a number of charges and asked for mercy when signing a petition for a pardon," was the statement with which the French lecturer and lecturer astonished his auditors. "That Dreyfus actually admitted his guilt is not generally known even by people who endeavored to follow the case closely in all its phases."

M. Le Roux explained to the students that his knowledge of the case came largely from the fact that he was asked by friends of Captain Dreyfus to take up the defense of the prisoner.

"At the time my aid was sought," added M. Le Roux, "I told Captain Dreyfus' friends that I would take up the case if they could show me that the man was innocent of the charges against him. They were unable to do this."

ROYALTY ON GOLD.

Ottawa Directs That It Be Abolished in the Klondike.

Tacoma, Wash., April 29.—Dawson telegrams say that orders have been received from Ottawa directing that the royalty on gold be abolished and an export tax imposed instead. This means the retention in the Yukon territory of the gold dust now in circulation and that resulting from the present clean up. A Canadian assay officer will be established at Dawson.

**SEVEN PEOPLE KILLED**

**TORNADO DOES CONSIDERABLE DAMAGE AT GLEN ROSE, TEX.**

**INJURED NUMBER FORTY**

Printing Office, Warehouse, Grocery Store and Many Other Business Structures Entirely Demolished.

Many Residences Blown Down, but Owing to the Great Confusion Details Have Not Been Ascertained.

Dallas, Tex., April 29.—A telephone message to The News from Morgan, Tex., says a tornado passed over Glen Rose, a small town in Somerville county, between 5 and 6 o'clock p. m., killing 7 persons, injuring 40 more and demolishing much property. The dead are:

Mrs. Carl Milan, 2-year-old daughter of J. R. Milan, Rev. Mr. Ford, pastor of the Methodist church; Miss Mae Connell, a boy named Musgrove, Mrs. Gage and one other, name unknown.

The most seriously injured are: Mrs. Tidwell, Mrs. Baschow, Mr. and Mrs. Thomas Trice and baby, Miss Fogg, Mr. and Mrs. Shields and Mrs. Lewis of Weatherford.

One-third of the business houses of the town were demolished. Assistance has been sent to Glen Rose from Morgan, but it will be some hours before anything like definite particulars are obtainable.

The courthouse was badly damaged, a printing office blown away, two saloons were partly destroyed, Milan's wareroom demolished, Lily & Son's grocery store blown away, a blacksmith shop destroyed and four buildings of Hendricks & Son were totally demolished. Many residences were blown down, but everything is in great confusion and the exact extent of the storm cannot be ascertained.

**STRUCK BY A SQUALL.**

**Schooner Grace Gribble Wrecked and Three of the Crew Lost.**

Sandusky, O., April 29.—The fishing steamer Louise brought the survivors and the first details of the story of another lake disaster. The schooner Grace Gribble of Cleveland, Captain Thomas Wilson, went to pieces on Point Pelee Saturday and three of the crew were drowned. Their names are: Levi Fuller, sailor, Port Hope, Mich.; College Bendixon, sailor, Port Hope, Mich.; and William Roach, mate, Cleveland.

The Gribble was en route from Ash-tabula for St. Ignace. Six miles from Detroit a squall took the vessel's canvas. The storm increased so greatly that the vessel was soon a wreck. The drowned men were washed from the boat by the heavy seas and the survivors had a perilous experience before they reached shore.

**LAND ALREADY PROCURED.**

**Monster Steel Plant to Be Erected at Chicago.**

Pittsburg, April 29.—The Dispatch says: An exact duplicate of the monster works to be built at Economy by the American Bridge company will be erected at Chicago at a cost of between \$2,500,000 and \$3,000,000. This decision was recently reached by the directors of the United States Steel corporation and will be one of the results of the pending bond issue of \$50,000,000. The Chicago plant will be used to concentrate the works of the Western district. The Toledo plant alone will be in operation. It will be operated in connection with the Pittsburg and Chicago works. The land for the Chicago plant has already been procured.

**GRAIN PALACE BURNS.**

**Company of State Guards Loses Arms in a Fire at Aberdeen, S. D.**

Aberdeen, S. D., April 29.—The grain palace burned early in the morning. Company L of the state guards lost all its equipment, including arms.

Burning embers from the roof were borne on a high wind several blocks, and a dozen fires were set thereby, but men on the watch put out the fires with little loss. The total loss will reach \$10,000.

**Charitable Institution Destroyed.**

Oakland, Cal., April 29.—The King's Daughters' Home, a charitable institution, containing 40 inmates, was nearly totally destroyed by fire, and two patients, William Bray, at one time a New York editor, and John H. Murray, were terribly burned. Bray died of his injuries. The fire is supposed to have originated by Bray overturning a lighted lamp while in an epileptic fit. The other patients, consisting of 25 elderly women and 15 men were rescued.

**Nine Passengers Injured.**

Eureka Springs, Ark., April 29.—A caboose on the St. Louis and North Arkansas Railroad left the track six miles west of here and nine out of ten passengers were more or less seriously injured. **HELD FOR INVESTIGATION.**

**Woman Believed to Be Mrs. Luetgert Arrested in Chicago.**

Chicago, April 29.—Mrs. Mary Robbins, who is believed by some to be Mrs. Adolph L. Luetgert, the supposed murdered wife of the sausage maker, was taken into custody by Detective Blais because of the strong suspicion that attaches to her case. Mrs. Robbins had intended leaving the Alma Mott home, 589 Austin avenue, to which she was taken about six weeks ago, but the chain of circumstantial evidence seemed so strong to Attorney Lawrence Harmon, who defended Luetgert, and to a number of other persons interested, that a hurried conference was held and it was decided to hold the woman until further investigation can be made.

The woman told apparently conflicting stories, but insisted that she is not Mrs. Luetgert.

Mr. Harmon asserts that he is more than ever convinced that she is Mrs. Luetgert and Detective Blais also declared that he believed she is the widow of the sausage maker.

**ARE TEN CENTS NOW.**

**Ham Sandwiches in Chicago Double the Usual Price.**

Chicago, April 29.—For the first time in many years in this city a cash outlay of 10 cents is necessary for the acquirement of one ham sandwich. The price has been 5 cents, but the restaurateurs have put up the valuation because of the prices they are compelled to pay for meat. Roast beef sandwiches have advanced 5 cents, from 10 to 15 cents.

It is estimated that 300,000 ham sandwiches are consumed in Chicago every day, and the increased cost to the public will therefore be \$15,000 on the ham proposition alone.

**DESULTORY FIGHTING.**

**London War Office Makes Public a Message From Kitchener.**

At Yara he met General Bartolome Masso, the candidate of the Democratic party for the presidency of Cuba, but who withdrew from the campaign, and received an affectionate greeting from him. The entire Spanish colony turned out in his honor.

**Amalgamated Convention Busy.**

Wheeling, W. Va., April 29.—The day was a busy one for the Amalgamated association. Two interesting events occurred. **DREYFUS CASE SECRETS.**

**French Lecturer Addresses University of Chicago Students.**

Chicago, April 29.—Alleged secrets of the Dreyfus case, unknown to many Frenchmen who followed closely the proceedings of the trial, were confided to the University of Chicago students during the day by M. Hughes le Roux. The French lecturer declared that Captain Dreyfus admitted guilt at the time he was pardoned.

"Captain Dreyfus not only was guilty of a conspiracy, but he confessed to a number of charges and asked for mercy when signing a petition for a pardon," was the statement with which the French lawyer and lecturer astonished his auditors. "That Dreyfus actually admitted his guilt is not generally known even by people who endeavored to follow the case closely in all its phases."

M. Le Roux explained to the students that his knowledge of the case came largely from the fact that he was asked by friends of Captain Dreyfus to take up the defense of the prisoner.

"At the time my aid was sought," added M. Le Roux, "I told Captain Dreyfus' friends that I would take up the case if they could show me that the man was innocent of the charges against him. They were unable to do this."

**ROYALTY ON GOLD.**

**Ottawa Directs That It Be Abolished in the Klondike.**

Tacoma, Wash., April 29.—Dawson telegrams say that orders have been received from Ottawa directing that the royalty on gold be abolished and an export tax imposed instead. This means the retention in the Yukon territory of the gold dust now in circulation and that resulting from the present clean up. A Canadian assay office will be established at Dawson.

Traffic along the Yukon from Dawson to White Horse is suspended until river navigation opens next month.

**Murders Her Child and Suicides.**

Winside, Neb., April 29.—Mrs. Katie Dimmell, divorced wife of John Dimmell, was found hanging to her bed post. Her small child lay dead on the bed. Mrs. Dimmell's mind had been unbalanced for some time, although she was thought to be harmless. The coroner's jury rendered a verdict of suicide in the mother's case and that the child came to its death by its mother's hands.
